

## Holder for Low-Temperature Dispensing Devices

### Product Description

The PH-43 holds one low-temperature MJ-A dispensing device. The device is held in place by a spring loaded mechanism, so no tools are required to install or remove the dispensing device.

### Ordering Information

<b>PH-43</b>	Holder for low-temperature dispensing devices.
<b>MJ-A</b>	Low-temperature dispensing device. Choose from six device types with barb, Luer, and threaded fittings.

### Support Equipment

The PH-03 may be combined with a fluid reservoir and the following components and subsystems to create a functional subsystem.

<b>CT-M3-02</b>	JetDrive™ III controller, including command set and Windows based stand-alone control program, JetServer™. Includes built in strobe delay & level 02 firmware (complex waveforms).
<b>CT-PT-21</b>	Pressure / Thermal Controller with one manual pneumatic channel.
<b>CT-PT-A1</b>	Electronic Pressure Controller and Pressure Mode Selector, single channel.
<b>CM-VS-03</b>	Basic Optics System: CCD camera, power supply, lens, fine focus, mounting block.
